### 5/Pocket money:

Nowadays children are given some amount of pocket money on a regular basis. They spend it on food and stationery . However, some children overspend their money on useless things such as sweets ,chocolate or cigarettes. They are always asking their parents for more. Children don't realize that money is hard-earned and that their parents can't afford to give them as much money as they want. In fact, overspending has become an addiction for many kids. They can't stop it. Therefore parents should teach them the importance of saving.

## 6 / Safety at home:

Parents should beware of the different hazards their children may risk at home and try to set safety rules to keep them safe. Children should avoid hugging or having face to face contact with pet dags because they are common causes of dog bites. Second, Tell your children to never tease a dog and never disturb a dog that is sleeping, eating or protecting something. Besides, parents should supervise their children's interaction with the dog. Finally, Don't Leave dogs isolated outside without any social interaction. Chained dogs are really aggressive and will certainly attack at the first chance they have.

My friends and I went to (an orphanage, a nursing home, a refugee camp...). When we arrived there the (children, the elderly, the refugees...) welcomed us warmly and gave us a big smile. They were extremely glad when we offer them gifts and some food. We saw how their faces lighted up with joy and happiness. Then we cheered them up by organizing a small birthday party for the (youngest, the eldest ) of them. It was a great fun! It was an exciting experience I will never forget.

I highly recommend doing voluntary work to help others. Don't think twice and take part in such humanitarian actions. I'm sure it will be a meaningful and a unique experience for you. So, don't miss the chance to be a volunteer.

# Writing hints & topics:

# 1/ School memories

I have good <u>school memories</u>. I still remember my <u>first day at school</u>. It was 9 years ago, when I was six. I felt so excited and happy because I didn't know school life. At that day, I got up early. I put an my new school uniform. I packed my schoolbag and went to school with my mother. My school was big and nice. The teacher was smiling and kind. The classroom was clean and decorated with nice pictures. I met new classmates. We became good friends. I liked my school. It was a good fun.

### 2/ School rules.

Some pupils don't <u>respect school rules</u>, but, I think that these rules are very important for them. Here are some rules that can help them stay safe at school.

To start with , pupils must bring their books and attend their lessons if they want to have good results.

Also, they must sit up straight and keep their legs for themselves. If they want to participate in class discussion, they have to raise their hands first. Besides, they must treat each other with respect. For instance, they mustn't be violent and punch or kick their classmates. In addition to that, they have to keep their classroom dean and never throw rubbish on the floor. Last but not least, pupils must listen carefully to their teachers and stop making noise in order to achieve better results.

To sum up, I think that school rules maintain discipline. Therefore, pupils will learn how to behave well and be responsible for themselves.

# 3/ School bullying: (school violence)

### Introduction

School bullying is a serious problem in many schools nowadays and it has negative effects on pupils who are bullied. However, working together, we can solve it.

Some pupils resort to violence because they want to show off and impress their classmates. However, their violent behaviour has many negative impacts on their victims. Pupils who are victims of bullying usually feel insecure when they go to school. They may feel embarrassed and intend to leave school. Also, they can lose confidence on themselves and feel lonely and isolated. Therefore, violence whether verbal or physical is hurting and has bad effects on its victims.

Body

That's why, I think that we should work together to stop it as soon as possible. For example, pupils should be tolerant and forgive their classmates' mistakes. Also, they can tell their parents if they are bullied or report it to the school principals because those bullies must be punished severely. Furthermore, we should support the victims of violence and protect them otherwise they will turn to violence themselves.

# Conclusion

To sum up, violence is a serious problem that threatens schools. But, fighting it is the responsibility of all pupils in order to have a peaceful and happy school life.

# 4 / Cheating: Why do pupils cheat in exams?

Reasons	Consequences	Solutions
<ul> <li>Laziness: pupils are lazy and don't care about their education seriously</li> <li>Pupils think that school is about grades and not learning.</li> <li>Get good marks: cheating can help them succeed.</li> <li>Lack of self- confidence: they can't rely on themselves. They think they don't understand well and they are too weak to get good grades.</li> </ul>	punished and expelled from school for at least 15 days.  • Cheaters feel guilty and ashamed.	Pupils should realize that school is about learning and not grades.  Work harder to get good marks.  Cheating is a bad habit that leads to fake success and not a real one pupils revise well for their exams pupils review their lessons regularly and should be attentive in class.

# Writing hints & topics:

# 1/ Smoking:

Smoking is bad for health. Millions of people smoke. Some are cigarette addicts while others have just started smoking. Smokers tend to die younger than non-smokers. They may also catch diseases such as lung cancer and asthma. The nicotine in tobacco is addictive. That means that when you start smoking, you won't be able to give it up easily. In addition, smoking may cause breathing problems. For these reasons, it's better not to start smoking. If you have already started smoking, try to stop before it will be too late.

To quit this nasty habit, it's necessary to have the desire to give it up. You should avoid stress and keep yourself busy. Try also to practise sports to keep fit and healthy.

### 2/ Pollution: effects and solutions

A/ Pollution has become a serious threat to the environment. The air we breathe, the water we drink and the land we live on are all polluted. People cause pollution. They throw rubbish everywhere. Factories and vehicles (cars...) release fumes into the air. Ships and tarks spill oil into the sea.

The effects of pollution on the environment are catastrophic. In fact, serious diseases have become very common nowadays such as cancer and heart diseases. Animal species have become extinct. Added to that, the forests which provide us with oxygen are destroyed because of logging and forests fire.

If we don't react urgently, our survival on the earth will be at risk. The first step to avoid this problem is to sensitize people about the dangers of pollution. The second thing to be done is to punish those who don't react positively and continue polluting the environment. Besides, let's use solar energy instead of fuels. Planting trees, getting rid of rubbish properly and saving wild animals and nature are other significant solutions to this threat.

**B** / I have noticed that many offenders kill birds and animals illegally. They forget that **wild life** with its diversities is part of our environment that we should preserve. Wild life is very important in the balance of nature. Yet, thousands of animals are killed every day. Millions of trees are cut and more other thousands of sea species are fished. Unless we react urgently, the Earth will become a large desert within hundreds of years. Nothing is more beautiful than the sight of green trees, animals and birds in the forest. So, let's work together to protect endangered species from extinction by prohibiting overhunting and punishing the offenders. It's high time we cooperated for the benefit of our nature and environment.

# 3 / To stay healthy:

To keep fit and stay healthy we should follow some advice. First, we should have a balanced diet. That means, we should eat less fatty and sugary food. Instead, we should eat organic food, fresh fruit and vegetables. Second, we should practise sports every day. Doctors usually advise people to go jogging or running daily. Finally, we have to avoid smoking because it's addictive and harmful to our health.

- You don't know the quality of the product.
  - You can't touch, see and test the product beforehand because online stores only show product description and photos which can be misleading.

### 2/ Tourism :

A/ <u>Tourism</u> is certainly one of the fields that offer a lot of things to people who want to entertain themselves and to forget about everyday stress. In Tunisia, for examlpe, tourism has made a lot of progress. Many hatels offer comfort and luxury to tourists who now come from all over the world to enjoy the sandy beaches in Tunisia or to go sightseeing and visit its historical monuments such as Eljem theatre or Carthage theatre which are famous Roman ruins.

B/ **Tourism** is travelling for pleasure or enjoying yourself away from the place you live. People like travelling for different reasons. They want to have fun, to visit other countries or to learn about other cultures. Tourists go to various destinations that have lovely beaches and wonderful nature. In the last few decades tourism has grown very much, mostly because people's lifestyles have changed. They don't want to stay at home any more. They spend more money at travelling than previous generations did. Travelling has also become cheaper and more affordable.

# 3/ Internet advantages and disadvantages :

# Internet advantages:

The internet has become an essential part of our life. It's widely used by people of all ages because it offers them huge benefits. The internet is **not only** a source of information and a means of entertainment **but also** a convenient way of communication and shopping. People can use it to chat to their friends and exchange files with them. They can **also** download music, look for information and buy goods online. **In addition**, the internet facilitates people's life. **For instance**, they can book hotel rooms for their holidays and pay their bills from their homes. **Therefore**, the internet saves them time and money.

# Internet disadvantages:

There's no doubt that the internet is useful and offers many services to people. However, it has some drawbacks. Firstly, it has a negative impact on people's health. For example, spending too much time in front of computer screen can harm the eyes and the brain. Secondly, children and teenagers may become addicted to online games which are most of the time violent. Some of these games, such as Blue Whale, are so harmful that urge teenagers and children to harm themselves and even commit suicide. Therefore, these online games could affect teenagers' physical and mental health. Moreover, the internet is not always safe. Some websites are dangerous and people, particularly youngsters may be victims of cyber bullying and hackers. Furthermore, the internet can distract pupils from their homework and consequently affect their school results. Last but not least, the internet has decreased face-to-face communication and interaction with family members.

# 4/ Means of transport advantages and disadvantages: Activity Book page 116

Travelling by plane has both advantages and disadvantages. On one hand, it is the fastest means of transport. It is also more comfortable than the train and the bus. Moreover, travelling by plane is safe. Therefore, aircraft accidents are quite rare. On the other hand, travelling by plane can be more expensive than travelling by other means of transport. It's also strictly dependent on time. That is to say, you have to buy the plane ticket in advance. In addition, unlike the train, there is no sightseeing on travelling by plane. Furthermore, some people are afraid of heights and may feel uncomfortable and scared.

Writing topics: (Teenagers' favourite pastimes / Different means of entertainment)

# 1/ Going to the cinema:

We all enjoy watching different types of films. Action films are the most popular ones among teenagers. Personally speaking, I love different types of films. I prefer watching adventure movies. Last Saturday, I saw "Mission impossible" at the cinema. It's one of the greatest films in the world. I also love watching films about nature because you can learn a lot by watching them. I like historical movies as well. It's interesting to watch past stories come alive on the screen.

# 2 / Favourite place for entertainment :

The zoo is my favourite place for entertainment. In fact, it's an occasion to see wild animals such as lions, tigers and a cocadiles. It's really safer and more enjoyable to see these animals which are kept in cages than to see them in the jungle. It's also a chance to learn a lot about these animals and their habits. We can feed monkeys or gazelles. In brief, going to the zoo is really entertaining and a great fun for me.

# 3/Tunisian teenagers' leisure time activities.

Teenagers in Tunisia like different types of entertainment. Many young people are interested in music. They use the internet to listen to music or watch videos on You Tube. Some others prefer attending sports events, hanging around with their friends or going to concerts and festivals in summer holidays. In fact, just as everywhere else in the world, using social media such as Facebook and Instagam to chat with friends or watch things online remain the most popular forms of entertainment among teenagers.
