### The text

My name is Olga. I am an ordinary girl of 17. I am a school leaver. My younger brother is ten. He is a pupil in the fifth form. He looks like our father. As for me everybody says I look like my mother.

Our family lives in London. We have a nice three-room flat on the fourth floor of a tall building. We have all modern conveniences.

My mother is about 40. She looks pretty well and doesn't look her age. We all love dearly our Mum and we are always ready to help her about the house. We try to share the housework. After classes I usually do the shopping.

My younger brother also has his duties about the house. He helps mother to set the table and wash the dishes. On Saturdays Dad joins us in our work about the house. He likes to clean the flat with a vacuum-cleaner. I suppose it's his little hobby. But speaking seriously his real hobby is taking photos. We have several family albums with the pictures taken by him.

My father is an engineer in computers. We are very proud of him. My mother has business in different towns of England. She is always busy and very often she works overtime. She usually goes on business trips. So she is very tired and dreams about summer holidays.

We have a little summer house and a lovely garden near it not far from Brighton. The nature is very beautiful. My grandparents like to live there in summer. My Granny is fond of gardening and my Grandpa likes to go fishing.
